	Examiner Patrick F. Brinson	Art Unit 3754	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the subject matter recited in claims 3 and 8 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered. Claim 3 recites “zippered joints”, however, this type of joint is not shown in the figures. Similarly, claim 8 recites the inner wicking layer extending through the air duct in intervals of about four feet, again, without illustration in the figures.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement

Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities: Claim 8 recites the inner wicking layer extending through the air duct in intervals of about four feet, however there is no support in the specification for this feature.

Appropriate correction is required.

Claim Objections

3. Claims 1 and 10 are objected to because of the following informalities: Claim 1 recites “a taper layer”, which should probably be changed to “tape” layer and recites “the seam” without proper antecedent basis. In claim 10, “herein” should be changed to “wherein”. There should be a period (.) at the end of claim 11. Appropriate correction is required.

Allowable Subject Matter

4. Claims 1-14 are allowed over the prior art of record, however, the minor objections described in the preceding paragraph are to be corrected.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Korsgaard '322 and '863, Crim, Jr. Kissell are pertinent to Applicant's invention in disclosing duct insulation including wicking material.
